### ABOUT ME

I'm a 24-year-old Front End Web Developer from Okemos, MI. I love everything that has to do with my passion of Web Design & Development. I love learning all that I can about Information Technology and the Web.

I have 8+ years of experience in the field starting early when I was still at Okemos High School. I love working with others and bouncing ideas off of each other to come up with the best solutions possible to even the most complicated problems. When clients are happy with the work that I do, it always puts a smile on my face.

Why don't we work together? Go futher down to see why I would be a great addition to your team!
